

MOTHERS IN EFFORT TO RESCUE CHILD

Prince Albert Flames Destroy Home—Charred Remains Found

PRINCE ALBERT, Sask., Jan. 15.—An effort to rescue a two-year-old child, Margaret, after she had been rescued from a burning home, Mrs. Mary Smith, 35, perished last Saturday in flames that destroyed her two-story home, 18 miles north of this home.

The charred remains of mother and daughter were found in the debris. A neighbor, Stanley Graw, found baby Eva, one year old, and Mary, three, alive in the stove near the blazing home. Flames and smoke frustrated his efforts to enter the burning place.

Jack Clarke, the husband, was absent in Prince Albert at the time of the tragedy until late last night.

Barcelona government withdrew emergency troops but was skeptical of the number.

Muscatelli further told Mr. Chamberlain today. They declared in a bulletin said that "in the meantime there is absolutely no question of talking of arbitration, mediation, four power conference, or even three power conference."

Diplomatic circles expressed belief that an imminent victory would provide Muscatelli with a foothold in the Italian peninsula. He could demand more territory and it would increase his ability to work with Chamberlain.

Some observers thought, however, that Muscatelli might be able to bluff France out of giving last-minute aid on a large scale to the Spanish government.

France may prevent Inaugural Victory

PARIS, Jan. 15.—The executive committee of the French League of Nations today demanded that the government consider necessary steps to prevent an Italian-aided insurgent victory in the Spanish peninsula.

A resolution adopted by the committee accused Italy of breaking promises made to the League of Nations.

Barrymore Still Has \$448,000 Home But No Taxi Fare

NEW YORK, Jan. 15.—John Barrymore still has his Beverly Hills, Calif., home with 35 rooms and three swimming pools, but he has not had money enough for taxi fare.

"Mamma," he said to his mother-in-law, Mrs. Edna Jacobs, "let me have some money for the taxi."

Barrymore is still in the city on the curb at Grand Central, with the owner of the movie palace, and he is waiting for a taxi to take him to her pocketbook and hand him the money.

Barrymore pocketed it and winked at the group of reporters and Hunter College students who had gathered outside his home.

London Zoo Values Its Animal Kingdom Not Less Than \$220,000

LONDON, Jan. 15.—Most men have not \$10,000 in their pockets, but the Royal Zoological Society, which would not part with Moira, the giraffe, is worth \$200,000.

The zoo, making its year-end census, has valued its 4,000 inhabitants (that doesn't include fishes or the like) at \$220,000 and has found 1,213,000 persons went to see the animals last year.

An Indian rhinoceros is valued at \$10,000. Three baby giant Pandas that took the black and white Teddy Bears are valued at \$7,500 each, while the Okiapi, a rare cross between a zebra and a giraffe, is worth \$3,000.

Pricing animals is a complicated business, partly value as a showplace, partly as a scientific asset. A well-trained elephant is worth \$4,000; one with no training is worth \$2,000. A tiger is worth \$1,000.

Australian Heat Wave is Piling Up Severe Death Toll

G. McCULLAGH, CBC DISPUTE TO BE AIRED

Premier King To Clarify Situation Relating To Toronto Publisher

By Thomas W. Wayling
Exclusive to Edmonton Bulletin
OTTAWA, Jan. 16.—The George McCullagh imbroglio with the Canadian Broadcasting Corporation will be aired in the commons today. The prime minister will make a statement clarifying the situation and emphasize the fact that Mr. McCullagh, of the *Edmonton Bulletin* and *Mail*, is not being discriminated against.

The fact that Mr. McCullagh has been kind and offered time to himself is taken as a mitigating circumstance.

The government will take the view that the CBC is a self-governing body and only carried out the principles approved by parliament. CIRCUMSTANTIAL REGULATIONS
The first broadcast afternoon had wide audience. Mr. McCullagh cleverly circumvented the regular CBC ruling by using phonograph records which will result in the regulations being tightened to prevent recurrence.

There is a good deal of sympathy in the capital with some of the ideas Mr. McCullagh expressed. He has chosen a poor time to express his views.

His broadcasts occurred exactly in time with those of H. R. B. Bennett in 1935.

Mr. Bennett broadcast a series of five talks in January with a view to the election. He had a wide audience, and received thousands of letters. But he didn't let the votes to go to the polls.

Mr. McCullagh might have got some opinion.

OTTAWA, Jan. 16.—Although showing some slackening from the "unusually great industrial activity in 1937, employment continued in Canada in 1938 maintained a higher level than that of 1936 and previous years on record.

According to the 1938 *Domestic Bureau of Statistics*, the annual review of employment, fluctuations of employment varied last year from those of 1937.

Voluntary Registration Of Revolvers Proving Value in Tracing Crime

OTTAWA, Jan. 16.—Voluntary registration of revolvers and pistols is proving of increasing value, "far beyond expectation," in the tracking down of criminals, according to the report of the Royal Canadian Mounted Police.

During the year ended March 31, 1938, registrations of 7,214 revolvers and pistols were made with various police forces throughout the Dominion, the particulars being filed also in the central files of the RCMP.

Where 108,339 such weapons are recorded, "in many instances men have been arrested in possession of weapons and, as a result, the value of the original files, which have been in a position to give the name of the original owner."

They also form the source from which criminals search for their arms with which to commit their crimes.

He suggested Poland was hesitant about accepting partly because Britain and partly because the colonial problem was something to be settled in the near future, while the Ukraine question was of immediate interest to the Polish woman and said.

WAR THREATS SUBJECT FOR CHURCH TALK

Macdonald Says Truths
Must Be Guarded—Other
Sermons Given

Closing his series on the passing of Christian standards and the threat of war, Rev. Dr. George A. Macdonald of Knox United church, a delegation representing the Christian church in the city, gave a sermon Sunday morning said that the call to guard sacredly the great truths had been neglected in the past, and that the Christian church must be guarded against the passing of Christianity itself.

Speaking in the sermon entitled by the clergyman at the evening services was on the second phase of the war, and he said that this is no new thing for it comes not intermittently throughout the ages, but in this era when men are frustrated with economic disintegration and social chaos, the great achievements of science being for the destruction of man, and they lose faith.

REARMAMENT
"This is the age for moral rearmament," the minister continued, "and he is in this era when men are frustrated with economic disintegration and social chaos, the great achievements of science being for the destruction of man, and they lose faith."

TEACHERS ASK PREMIER FOR PENSION PLAN

Urging That Legislation Be
Introduced At Forth-
coming Session

Urging that at the coming session of the legislature—opening on February 3—legislation be introduced providing for establishment of teachers' pensions, a delegation representing the Alberta Teachers' Association, in a letter to Premier Abrams, at the government building, Saturday.

The premier promised consideration of the representations, which included several questions in addition to pensioning.

Included in the delegation were Dr. M. E. Lattin, president of the A.T.A., and J. H. Colquhoun, secretary of the association. Other members of the delegation were: J. H. Colquhoun, secretary of the association, and J. H. Colquhoun, secretary of the association.

It was pointed out by delegates that the whole membership of the teachers' pension plan was "bitterly disappointed" when the 1938 legislation did not establish a pensioning legislation.

During the last year, it was submitted, the association had secured resolutions passed by school boards, parent teacher associations and other organizations, and the principle and practice of pensioning for Alberta teachers was established. The association is now in a position to attempt to pass legislation to this end. Sample copies of the resolutions were distributed.

Another submission was that the government should make the necessary amendments to the statute so as to give teachers the right to pensioning. The association is now in a position to attempt to pass legislation to this end. Sample copies of the resolutions were distributed.

Study In Public Tastes

IF YOU are one of those brave persons who dare on tough puzzles, you should be studying the public's secret matters for a season or two. The public's tastes are changing, and it is time to study them.

Let us take hockey for an example. Once upon a time we had hockey, but now it is a different game. The fans are not the same, and the game is not the same. The public's tastes are changing, and it is time to study them.

ESKIMOS Beat Olds 4-3 In Rousing Hockey Clash

Wee Cox

Early in the season this column went on record to the effect that the present Alberta League is loaded with dynamic from top to bottom. Today we'll go further and declare the league to be completely over-ripe. Just look back over the scores for a week and you'll agree that anything can happen at any time in this circuit.

Only top and sensational plays will keep Lehnandez and Turner from being the stars of the game. The Eskimos won 4-3 in a rousing hockey clash.
